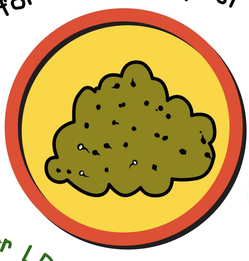
LDD Microbial products

Microbial activator **Super LDD 1**
for making compost



Microbial activator **Super LDD 2**
for producing bio-extract

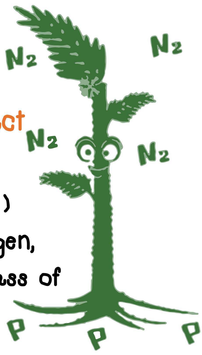
Microbial activator **Super LDD 3**
antagonistic microorganisms
controlling plant pathogens

Microbial activator **Super LDD 6**
for producing waste water treatment,
reduced odorous substance and
controlling Culex mosquito Larvae

Microbial activator **Super LDD 7**
for producing insect repellents

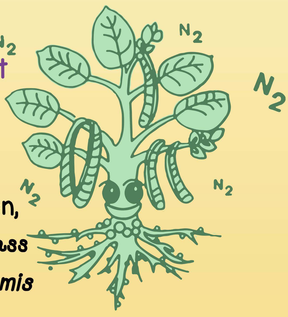
Microbial activator **Super LDD 9**
for increasing available phosphate
in acid soil and acid sulfate soil

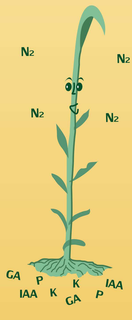
Microbial product **Super LDD 11**
(African Doncha)
for increasing nitrogen,
phosphorus and biomass of
Sesbania rostrata



Microbial product
LDD11
(Sunhemp)
for increasing nitrogen
phosphorus and biomass
of *Crotalaria juncea*

Microbial product
LDD11
(Jack bean)
for increasing nitrogen,
phosphorus and biomass
of *Canavalia ensiformis*





Biofertilizer LDD 12

for increasing nitrogen, phosphorus
potassium and plant hormone
